Subject: Tobacco/Nicotine Free generation

Hi Sigalle, the Belchertown Board of Health is considering adopting the language into their tobacco sales regulations for the tobacco free generation (prohibiting all tobacco products from being sold to anyone born on or after January 1, 2004).

They are still in the beginning stages in discussing the proposed changes and have not voted on a final draft. However, the Select Board wants me to meet with them to educate them on this strategy and have some concerns, obviously about the affect on local business.

Do you have any talking points/facts that Brookline used in regard to this?
