MHOA Summer Lunch and Learn Webinars

Nicotine Free Generation

Thursday, July 11, 2024 from 1pm to 2pm

Nicotine Free Generation replaces the minimum age sales law on tobacco and vape products. It provides that anyone who is 21 years of age or older on a designated date may continue purchasing nicotine products, but for anyone younger than 21 on that date, the municipality would be nicotine free now and forever. How did this groundbreaking policy come about in MA and what are the recommended steps if your municipality is interested?

Presenters: Chris Banthin, Program Manager and Senior Staff Attorney at the Public Health Advocacy Institute, and Maureen Maureen Buzby, Tobacco Prevention Coordinator for seven Mystic Valley municipalities

Free for MHOA members! \$25 for non-members.

The Power of Data Visualization:

The Key to Effective Local Public Health Communication

August -7th, 1 pm - 2 pm

Have you ever attended a meeting about an important topic but found yourself falling asleep when the speaker begins presenting the data? This presentation aims to change that! Data visualization is a powerful tool that, when used correctly, allows us to be able to effectively communicate and share our public health stories. After this presentation, you will be able to answer the following: What is data visualization? Why is it important? What is its purpose and value in local public health? How do I use data visualization to tell my community's story and to advocate for change?

Presenters: Manizeh Afridi, MPH - Public Health Consultant for BME Strategies, Pooja Shelke, MPH - Regional Epidemiologist for MetroWest Shared Public Health Services, and Thalita Campelo - Public Health Communications Specialist for MetroWest Shared Public Health Services
