Hi Justine,

In our last conversation, you called the idea of a "generational tobacco" regulation for Dover "silly".. I view this initiative on the part of my fellow Board of Health colleagues not just as "silly" but as a dangerous entree to our residing in an over-regulated town that would erode personal freedom for adults ..

As a "Hail Mary", I'm asking you to communicate today with the citizens on your email list and express your opinion about the subject of tonight's BOH hearing. No one, of the over twenty Dover citizens I've spoken to individually about this issue, is in favor of this proposed regulation.
