Teresa,

No worries, you didn't miss much. It has only been discussions at this point so we haven't even reached the stage of having a formal vote/decision on it. We are going to hold a hearing sometime in September and we will have a vote sometime after that. Please keep an eye out and/or stay in touch and I would be happy to keep you in the loop.

Please oppose the Generational Tobacco and Nicotine ban. Prohibition never works. Banning a product creates the illusion of control. In reality, tobacco products will simply move over to black market sales. It is better to allow adults to make their own decisions.
