FPHS DPH Updates Contact Us

OLRH Website Improvements

Help Us Rethink Our Website and Build a Local Public Health Resource

Last year, the Office of Local and Regional Health (OLRH) conducted a survey to better understand how our local public health (LPH) partners interact with us. While more than three out of every four of you attended a webinar to engage with us, less than half of survey respondents accessed the [Office's website](#) on Mass.gov. Only 43.7% of those taking the survey listed "accessing OLRH's website" as their most common form of engagement.

We want to do better.

That's why we're redesigning and rethinking OLRH's website and content. However, we need your help to build an accessible, user-friendly, trusted, and informative resource for LPH and the public.

OLRH is gathering insights from our LPH partners through **Friday, Aug. 16**. We value your input and want to ensure that the website meets your needs. [Please take our website survey now and let us know what you think.](#)

Limited Number of COVID-19 Test Kits Available for Local Boards of Health from Federal Government

As COVID-19 cases have increased over the last several weeks, DPH has been made aware of an opportunity from the U.S. Health and Human Services (HHS)'s Administration for Strategic Preparedness and Response (ASPR) for local health to request **free, at-home COVID-19 test kits**. This would be available for all local boards of health (LBOH) across the Commonwealth.

[To request at-home tests](#) as an LBOH, **each LBOH may complete one copy of the [attached form](#) and email it directly to Larry Blankenship at larry.blankenship@hhs.gov before Monday, August 19**. HHS will oversee test kit distribution and ship directly to LBOHs.

HHS has shared that the test kits will expire within 60-90 days. This does not change [current testing guidance](#) from the Department, which recommends testing done to support symptomatic and outbreak testing, but not routine surveillance.

As a reminder, you may continue to purchase testing supplies off the statewide contract (HSP41) at: [COVID-19 Statewide Contract Resources | Mass.gov](#)

DPH Announces Season's First Human Case of WNV and First Animal Case of EEE in Massachusetts

Earlier this week, DPH announced the first human case of West Nile virus (WNV) and the first animal case of Eastern equine encephalitis (EEE) in the state this year. The individual is a male in his 40s who was exposed to WNV in Hampden County. The EEE infection was diagnosed in a horse exposed in Plymouth. Mosquito samples collected in Dedham also tested positive for EEE. These findings raise the EEE risk level to high in Plymouth and to low in Dedham.

More information, including all WNV and EEE positive results, can be found on the Arbovirus Surveillance Information web page at [Mosquito-borne Diseases | Mass.gov](#), which is updated daily, or by calling the DPH Division of Epidemiology at (617) 983-6800.

August Webinar

Each month, the Office of Local and Regional Health provides webinars on various topics relevant to local public health. The hour-long webinars are held from 3 to 4 p.m. This month's topics included an update on Steward Health Care, COVID-19 test kits, OLRH communication updates, and a Foundational Public Health Services (FPHS) update.

[View slides](#) from the webinar, [answers to questions](#) asked during the webinar, and [related resources](#).

We Want to Hear From You!

Submit your questions and recommended topics for the next webinar, on **Tuesday, Sept. 10**, to us via email to localregionalpublichealth@mass.gov by **Wednesday, Sept. 4**. We value your input and welcome your suggestions for future webinar topics.

Accessibility

We want to ensure that our webinar is accessible to our audience. If you need accommodations, such as American Sign Language (ASL) or Closed Caption, please email us at localregionalpublichealth@mass.gov.

How to Register

- If you have **not yet registered** for this webinar series, use this link: https://us06web.zoom.us/webinar/register/WN_A8RODgL2QtabJlqdNTpV1g
- Please note this is a recurring event. **You only need to register once.**
- After registering, you will receive a confirmation email from Zoom with your unique link to attend the webinar and import the events into your calendar ([how-to guide](#)).

Public Health Museum Family Movie Night: Osmosis Jones

Join the Public Health Museum for a screening of "Osmosis Jones" with popcorn and refreshments!

"Osmosis Jones" (2001) follows the misadventures of a zoo worker with an unknown malady he contracted after eating an egg contaminated with simian saliva. The responsibility of eradicating this lethal virus falls to a white blood cell cop and a fussy cold-cure pill.

Saturday, Aug. 10

11 a.m.

Public Health Museum, Tewksbury, Mass.

Color: Prepare for Flu Season

Join DPH Color for a one-hour training session to review the features available in the On-Site Tool. This training is for both **new** and **existing** users and is an opportunity to review the features in the platform.

Thursday, Sept. 5

2 - 3 p.m.

Virtual (Zoom)

[Register online](#)

Advance Registration Open Now

The conference will take place **November 13 - 15** at the MassMutual Center in Springfield, Mass. Visit [MHOA Conference 2024](#) for all the details, including hotel information, keynote speakers, agenda, exhibitors, sponsors, and more. The site will be updated as more details are finalized.

Take advantage of Advance Registration running until **Friday, Sept. 6!** To register a group of people on one invoice, please send a list of names, email addresses, food allergies for each person, and a point of contact for follow up to lpacella@mhoa.com.

Save the Date: 2024 Yankee Conference

The 2024 Yankee Conference will be held **October 16-18, 2024** in Mystic, Conn. More details coming soon!

Northeast Food and Drug Officials Association's (NEFDOA) Retail Food Protection Seminar

Registration is now open for the
Northeast Food and Drug Officials
Association's (NEFDOA) Retail Food

Save the Date! MPHA Conference

This year's Massachusetts Public Health Association (MPHA) [conference](#) will be held virtually on **Tuesday, Dec. 10**, from 9 a.m. - 12 p.m. Mark your calendars now and plan to join us for this thought-provoking morning with health equity change-makers!

Two New National Certifications for Tobacco Treatment Providers

Two national certifications are now available to professionals specializing in nicotine and tobacco dependence assessment and treatment. These certifications **promote national standards** for evidence-based treatment and acknowledge the value that tobacco treatment experts provide. Each certified provider also commits to **maintaining the high ethical standards** of the profession. The hope is that the certification processes will lead to greater insurance reimbursement for care provided by qualified tobacco treatment providers. The two certifications are listed below, and you can visit the website of each for more information.

- **American Heart Association: Certified Professional in Tobacco Treatment**
 - Professional education hub help: (877) 340-9899 or intelligo.help@intelligohub.org
 - For requirements and more information: www.heart.org/tobacco-treatment
- **NAADAC, Association for Addiction Professionals: National Certification in Nicotine and Tobacco Treatment (NCNTT)**
 - For requirements and more information: www.naadac.org/ncntt

Just Launched: FREE Training from the Public Health Collaborative Academy

The Public Health Communications Collaborative (PHCC) Academy is a new training hub to support public health communicators around the country. Join us for The PHCC Academy's first course, *Strengthening Public Health Communications through Community Engagement*. [Learn more](#) and [register online](#).

FREE Public Health Informatics & Technology Courses at Middlesex Community College

Thanks to generous grant funding, Middlesex Community College (MCC) is enrolling students for the Fall 2024 Public Health Informatics and Technology (PHIT) program. Students have the chance to earn **FREE college credits** and a micro-credential by participating in their **100% online** PHIT courses this fall.

Students who enroll can choose to complete all three courses in one semester, or take them one at a time, depending on schedule and preferences. Upon completion, students earn a FREE micro-credential that counts toward an Associates degree at MCC and transfers to the BS in Public Health at UMass Lowell.

- Learn more about the program:
<https://www.middlesex.mass.edu/phit/micro.aspx>
- For more information please contact Kori Boeckeler, PHIT Program Coordinator:
Boeckelerk@middlesex.mass.edu

Save the Date: 2025 National Conference on Health Communication, Marketing and Media

Mark your calendars for the [2025 National Conference on Health Communication, Marketing and Media](#) (NCHCMM) to take place **July 29 - 31, 2025 in Atlanta, GA**. Now in its seventeenth year, NCHCMM continues to provide a unique opportunity for individuals representing academia, public health researchers and practitioners from federal and state government, as well as industry leaders and experts, to participate in collegial dialogue within and across these groups. For questions about the NCHCMM, please email nchcmm@nphic.org.

Apply for the Municipal Master Services Agreement (MSA) RFR

The purpose of this [Request for Responses \(RFR\)](#) is to establish a pre-qualified list of approved vendors, namely **local and regional public health entities**, to be eligible for potential future funding from the Department of Public Health DPH.

All municipalities and/or regional health districts are strongly encouraged to apply as many future DPH grants will be distributed through this municipal master services agreement (MSA). **NOTE:** PHE lead grantees are already in the MSA and do not need to apply.

[Visit the RFR posting here](#) for the application and Confidentiality Agreement (can be found in the REQ zip file on COMMBUYS). Please return the completed forms to Brian.W.Sheehan@mass.gov along with any other questions.
