Readiness Summit Opening Plenary to Address 2023 Hazardous Train Derailment Response

A Norfolk Southern freight train carrying hazardous materials derailed in a community of 4,600 in East Palestine, Ohio. Early 70 federal, state, and local emergency agencies from three states mobilized in response to the event.

for a plenary discussion, "**A Case Study in Response: Public Health, Healthcare, and Emergency Management Responding to the East Palestine Train Derailment**," to hear first-hand from state and local representatives looking back at their response. See how lessons learned from this coordination effort can help you align the public health, healthcare, and emergency management sectors in your community for crisis and blue skies.

Colleagues in New Orleans this April for the 2024 Public Health Law Practitioners Convening

Due to a combination of limited funding and shifts in public health authority, many in public health find themselves grappling with challenges in performing their vital roles effectively. NACCHO and the CDC have organized the **Public Health Law Practitioners Convening**, being held April 30-May 2, in New Orleans, Louisiana, for public health law practitioners interested in developing professional relationships, gaining new insights, and discovering innovative solutions while considering equity and cross-sector partnerships.

This is a great opportunity to address these obstacles and register for the 2024 Public Health Law Practitioners Convening. [Join the Convening Officials in New Orleans from April 30 to May 2, 2024](#). For additional updates, subscribe to the [Public Health Law Practitioners Law Convening E-Newsletter](#).

Register Today for a NACCHO Workshop and Learn to Manage Mosquitoes in Disaster Situations

Vector control programs in North Carolina, South Carolina, Florida, and Puerto Rico affected by 2022 Hurricanes Fiona and Ian are invited to attend NACCHO's 2024 Vector Control Hurricane Crisis workshop in April to help increase program capacity ahead of the next hurricane season. General registration is now open. [Visit this page to learn how our in-person workshop can benefit you](#). **Travel scholarships for the workshop close next Friday, February 16.** Please apply ASAP at [office.com/r/QJTpiTE3kE](https://naccho.org/office.com/r/QJTpiTE3kE) if you wish to be considered to receive travel assistance. This workshop is hosted by NACCHO in partnership with the Centers for Disease Control and Prevention. **Have questions? Email:** vectorcontrol@naccho.org.

Celebrate NACCHO's 30th Anniversary with 30 Moments in Public Health

Throughout 2024, NACCHO is celebrating its 30th Anniversary and extraordinary 30-year journey in public health. In commemoration, we are highlighting 30 of the most foundational, pivotal moments that helped create and define NACCHO as it stands today. NACCHO is celebrating its fourth defining moment, which came in 1985 when Grace Starbird becomes the first paid executive director with grant funds from HRSA plus membership dues. She files articles of incorporation, and Bob Harmon registers NACCHO as a non-profit organization.

[Learn more on our 30th Anniversary Webpage](#) about NACCHO's activities commemorating its 30 years of service to the nation's 100 local health departments.

NACCHO Newsletter Shares Latest Information on Tobacco Control and Prevention

NACCHO's Chronic Disease team has launched a tobacco control and prevention quarterly newsletter. The Tobacco News newsletter provides resources such as federal and national partners, provides federal policy updates, shares best practices from local health departments, and promotes funding opportunities. [Subscribe here](#) to get the latest news on tobacco control and prevention. For additional resources on tobacco use prevention and control, please visit the [NACCHO website](#).

NACCHO Awards \$350,000 in New Overdose Response Project Funding

NACCHO, representing the country's over 3,300 local health departments, has awarded nearly \$350,000 in funding to several local health departments to support [Overdose Response Strategy](#) (ORS) pilot projects to help address the overdose crisis in their communities. With support from the federal government, NACCHO will support seven ORS teams crossing the public health and public safety sectors to explore collaborative approaches to the overdose crisis. [Read the full press release](#)

NACCHO and Partner Funding Opportunities

Extending the Deadline for NACCHO's Wastewater Surveillance Mentorship Program Applications
In the wake of high priority pathogens behind COVID-19, RSV, Mpox, and more. Local health departments still have time to join the popular Wastewater Surveillance Mentorship Program to establish or expand your jurisdiction's wastewater surveillance structure based on guidance from experienced peers. [View lessons learned](#) from our last batch of mentors and mentees. **Important!** The [request for applications](#) has been extended to **Monday, February 12, 2024, 11:59 PM ET**.

Data Readiness for Operational Success
With support from the Administration for Strategic Preparedness and Response (ASPR), is pleased to offer a funding opportunity for Local Health Departments (LHDs) to strengthen readiness for public health threats through data sharing of information collected by ASPR during a public health emergency. Approximately two awards up to \$100,000 each are available. This initiative is to enable bidirectional data-sharing between ASPR and LHDs for coordinated, scalable, and timely response to public health threats. **Applications are due by February 23.** [Click here to learn more.](#)

Upcoming Webinars for NACCHO Membership

[Protecting Infants from RSV: Update on new prevention strategies and real-world evidence](#)
February 21 | 2:00 PM ET

Respiratory Syncytial Virus (RSV) is the leading cause of hospitalization in infants under 12 months and results in approximately a half a million emergency department visits every year. The Advisory Committee on Immunization Practices (ACIP) recommend new immunization strategies for RSV in infants. RSV prevention strategies for infants are available and providers are encouraged to play a vital role in educating and offering these new immunizations in communities. The webinar will provide an update on RSV prevention strategies, gain LHD feedback to help prepare for next RSV season, and share recently published real world evidence. [REGISTER HERE](#)
