

Town of Dover, MA Board of Health Regulations

Chapter 220 Smoking; Sale of Tobacco and Nicotine Delivery Products

Proposed amendments to Section 220-2 Findings; purpose:

There exists conclusive evidence that tobacco smoke causes cancer, respiratory diseases, various cardiac problems, allergies, and irritations to the eyes, nose and throat of both the smoker and nonsmoker exposed to secondhand smoke. Evidence further demonstrates that nicotine, present in tobacco, is extremely addictive. Almost 90% of all smokers begin smoking before the age 18 , and every day an estimated additional 3,000 minors begin smoking in the United States. There is an urgent health need to reduce easy access by youths to tobacco and nicotine products through strict enforcement of the state law prohibiting sales to minors, MGL c. 270, § 6, and additional measures. Therefore, these regulations are adopted pursuant to MGL c. 111, § 31, as reasonable health regulations designed to protect and improve the health of the residents of the Town of Dover.
