**Hydrant Best
Practices**

Tue, Dec 9, 2025

9:00 AM - 12:00 PM

Hydrants play a key role in water system asset management and GIS mapping. This webinar shares insights from real-world drinking water projects and collaboration with firefighters. You'll learn how to estimate a hydrant's age when markings are missing, identify styles by decade and manufacturer, and use related assets like mains and valves to solve age mysteries. It also covers visual inspections, data logging, flushing practices, and budgeting for replacement.

**MA & RI Drinking Water Operators: 3
TCHs**
