Workshop Description

This workshop provides an overview of the Safe Drinking Water Act (SDWA) and the regulatory backdrop that impacts public water systems. Regulatory history covers many aspects of why rules are in place and how they have improved the way we provide quality drinking water. This course will cover regulatory history, and current and recent changes to drinking water regulations. This training is also for potential water operators, managers, and board members.

What topics will be covered at the workshop?

- History of the SDWA
- Microbial Contaminants
- Chemical Contaminants
- PFAS
- Groundwater Rule
- Arsenic
- RTRC
- Disinfection Byproducts
- Public Notification

Questions?

Email: training.tristate@rcapsolutions.org

Before the training, please review the attached [guidelines of attendee participation](#) for earning TCHs.
