Drinking Water Operators from MA and RI can attend any of the sessions and will earn TCHs.

Workshop Description

Your system faces day-to-day challenges providing reliable service for your customers. Management and finances are important for small systems to operate correctly. This course will cover management areas, asset management and hydrants, emerging contaminant impacts, budgets and benefits of having reserves, and rate setting tools. This training is also for potential water operations, managers, and board members.

What topics will be covered at the workshop?

- Key Management Areas
- Management Overview
- Recent Impacts
- Communication
- Asset Management
- Hydrant Tracking
- Budgets
- Reserves
- Finances
- Rates
