This session has been approved for 3 TCHs for Drinking Water Operators and Wastewater Operators in MA, CT and RI

Workshop Description

This session begins with a review of basic concepts, followed by practical **exercises** to apply them to simple problems. Math is essential in drinking water & wastewater operations and can be challenging, but this course will help build confidence and skills. There will be a pre- test, quizzes, and a post-test. Be prepared for plenty of practice—**bring paper, pencil, and calculator.**

What topics will be covered at the workshop?

- Order of Operations
- Rounding
- Fractions & Decimals
- Conversion Factors
- Percentages
- Geometry (Area, Perimeter, Volume)
- Working with Equations
- Water Concepts (Flow Rate, Velocity, Pressure, Static Head)

Questions:
