Workshop Description: Math is an integral part of drinking water and wastewater operations and is often one of the hardest topics to master. This course will review basic math concepts, tactics for solving problems, and provide practice applying the concepts to solve examples.

What topics will be covered at the workshop?

- *

Order of Operations & Rounding

- *

Fractions & Decimals

- *

Conversion Factors

- *

Percentages

- *

Geometry (Area, Perimeter, Volume)

- *

Working with Equations

- *

Water Concepts (Flow Rate, Velocity, Pressure, Static Head)

Questions? Contact: training.tristate@rcapsolutions.org

This workshop is made possible thanks to funding from the U.S. Environmental Protection Agency (EPA).
