Good morning all!

Attached is our agenda for our meeting tomorrow evening. I have also attached an example of a Tree Preservation Bylaw in the Town of Lynnfield that was passed in 2021. Please review this bylaw as it is structured very similar to what we should consider for Dover.

I've included the Brookline bylaw - please see section 8.26.2 for their erosion control bylaw, which is a great model for us as we work with the DPW to update our stormwater management bylaw.

Lastly, the draft minutes from our last meeting have been attached for us to review and vote on at our meeting tomorrow.

Thank you!

Val
