Mr. Griffin,

This is Josh Pruett with the National Association of Tobacco Outlets. It has come to our attention that there is an item on the BOH agenda for next week regarding NFG. It is listed under the "correspondence" section of the agenda. Does that mean that the policy will be discussed in detail by the board or are they just being informed of correspondence that has been received on the policy? Any clarification you can provide is greatly appreciated.

Thanks,

Josh Pruett

Hi Josh,

No it's a City council meeting. At our February BOH meeting, the Board agreed to holding an in-person hearing on updating our Tobacco regulations, including the potential implementation of NFG regulations.

City Council has just requested I go in front of them and explain NFG, what the hearing will be about.

No set date yet for hearing but should be sometime end of March Early April. I should have an exact date by end of the week.

Ryan Griffin
Director of Public Health, Easthampton
