Ryan,

I hope this finds you well.

I believe that at the last Board of Health meeting, it was the hope of the board that some young people would speak, and then likely the board would vote on the full tobacco regulations. Am I correct?

I thought that you were going to try to find students. Is The 84 group of anti-tobacco kids active in Easthampton?

I also may have some very articulate kids from outside Easthampton on the Zoom meeting.

Also, have you scheduled this month's meeting yet?

Thank you for your help!

— Ken

Hey Ken,

Yes, This Month's meeting is this Wednesday the 9th . There will be a presentation from an Easthampton student on NFG, and the board members will be able to ask them questions.

After that, the board will vote. I am very confident

Thanks

Ryan Griffin

That's great.

We will be watching to see if the nicotine industry chooses to speak during the Public Speech Time. A couple of high school students, who actively support NFG, might also speak (unless you think that is a bad idea).

Today, I was invited to meet with the Hadley Board of Health in their first meeting after the summer.

Thanks!

-- Ken

PS: Would it be possible to get a copy of the PowerPoint that was shown last month?

Always a good idea. We have already completed the public speaking for the hearing; they are more than welcome to join at the beginning of the meeting for the regular public speaking.

Attached are the PowerPoint Brad created and a quick NFG one-pager I like a lot.
