We Need Your Help Shaping the Future of Public Health in Massachusetts

OLRH is excited to share updates about our work to build a data solution that all health departments across the state can use to collect, organize, share, and report public health data and streamline their daily work. Our aim is to provide better, faster, more actionable and equitable public health insights for Massachusetts communities.

Currently, we're conducting initial research to understand what you need and want to improve your work with data (collecting, reporting, and analyzing) and daily tasks. We're looking for volunteers from local public health to share insights so that we can build a system that works for you. We'll be looking for your input through 100+ touchpoints — including listening sessions, focus groups, 1-1 interviews, office hours with OLRH, and user testing with solution prototypes.

If you're willing to participate in any of these touchpoints, [please fill out this form to indicate your interest](#)!

Registered Sanitarian (RS) and Certified Health Officer (CHO) Renewal Period is Open!

The renewal period for Registered Sanitarians and Certified Health Officers opened on Oct. 1, 2024, and will run through Jan. 15, 2025. Please submit your renewal applications through the [Health Professions Licensing Portal](#).

To assist you with the renewal process, we will be holding virtual technical support office hours. No need to register, [join any of these sessions](#):

- Wednesday, Nov. 6 : 9:30 - 10:30 a.m. and 2 - 3 p.m.
- Wednesday, Dec. 11 : 10 - 11 a.m. and 2 - 3 p.m.

If you have any questions or need one-on-one assistance, please feel free to contact rs.cho@mass.gov or call (413) 330-4173.

Survey on Understanding Flood Communications in Local Communities

Researchers from the Research Triangle Institute and the University of Vermont are conducting a study on flood communication in local communities. They are currently recruiting people to fill out a survey, and specifically want to hear from people who communicate about emergency weather in organizations like local public health.

Researchers plan to share what they learn with organizations like the National Weather Service to help improve the distribution of new flood information tools and, in the process, serve local communities.

A link to the survey can be accessed via the survey flyer: <https://tinyurl.com/survey-flyer-flood>

The survey will remain open until late October . Additional information about this National Oceanographic and Atmospheric Administration (NOAA)-funded research is [available here](#).

If you have any questions about this study now or in the future, you may contact Dr. Anne Jefferson at (802) 656-5734 or Dr. Jill Brown at jillbrown@rti.org.

Take Part in a Local Public Health Academy Strategic Plan Focus Group

OLRH invites our local public health (LPH) partners to participate in a 45 to 60-minute virtual focus group to gather valuable insight on a potential Local Public Health Training Academy for Massachusetts.

We are conducting a series of strategic discussions to best inform the priorities and infrastructure of a potential statewide local public health training academy. Your experience in LPH is invaluable in this process.

Please register for ONE of the two dates if you're interested by completing the form below. It takes less than 1 minute to complete. Space is limited. Registration closes Tuesday, Oct. 15. All responses will remain confidential.

- 10 to 11:30 a.m. Tuesday, Oct. 22: [Click here to register](#)
- 2 to 3:30 p.m. Thursday, Oct. 24: [Click here to register](#)

OLRH has contracted with Health Resources in Action (HRiA) to assess the project's feasibility, draft a strategic plan, and conduct these focus groups. If you have questions, please email Jessica Tracy, Assistant Director of Local Public Health Workforce Development, at Jessica.E.Tracy@mass.gov.

Foodborne Illness Complaint System Survey

The National Workgroup on Foodborne Illness Complaint Systems would like your help to learn about the current diversity in complaint-based surveillance methods . They kindly ask that you, or someone from your local level agency who is knowledgeable about your foodborne illness consumer complaint system, complete [this survey](#) . Please only have one person at your agency complete this survey.

The information and data you provide will be de-identified and aggregated. Aggregated data will be used to establish a baseline of current complaint system practices, guide topics of interest for workgroup discussions, and identify areas for guidance and resource development. The overall findings/trends will be shared with the workgroup, but data specific to states will be kept anonymous.

Your response and feedback by Wednesday, Oct. 23, is greatly appreciated.

PH WINS 2024 is Live!

Reminder, if you haven't submitted your staff list yet, there's still time! Please ensure your [staff list](#) is submitted by Friday, Nov. 8 . For more details on PH WINS 2024, visit [phwins.org](#) or contact r1phwins@bu.edu.

[Back to top](#)

Happening Now

Covidtests.gov is Open for Ordering!

The Administration for Strategic Preparedness and Response (ASPR), in collaboration with the U.S. Postal Service, has reopened [COVIDtests.gov](#) so that households across the country can order four over-the-counter COVID-19 tests for free . These tests are intended for use throughout the 2024 holiday season to detect currently circulating COVID-19 variants. Clear instructions are included on how to verify [extended expiration dates](#). Please share with your communities!

Engaging with Sensitivity: Techniques for Interviewing

Council of State and Territorial Epidemiologists (CSTE) Learn has released an excellent new training: [Engaging with Sensitivity: Techniques for Interviewing Persons Experiencing Homelessness, Disability, and Substance Use Disorders](#). This is a self-paced training series that consists of several modules totaling less than three hours. It is designed specifically for health officials who conduct case investigations and need to ask questions about sensitive

topics such as housing, disabilities, drug use, and sex. There are examples from a range of investigation types including hepatitis C, Shigella, and mumps. Anyone can create a free account on CSTE Learn and access this training!

FREE Mobile COVID/Influenza Clinics

DPH is now scheduling FREE mobile COVID/influenza clinics for the fall vaccination season. These clinics, which are open to the public, may be hosted by organizations including senior/community centers, civic clubs, and houses of worship. Vaccination is provided to patients aged 6 months and up at no cost. ID and insurance are not required. To submit a request to host a mobile clinic in your community, please visit this page :

<https://survey.jsi.com/s3/MA-Mobile-Vaccination-Clinic-Request-Form>

Questions? Please email dphmobilevaxclinic@jsi.com.

Additionally, DPH is now offering FREE in-home vaccination for COVID and flu across the Commonwealth. Anyone (aged 6 months and up) who has difficulty getting to or using a community vaccination location is eligible. Appointments will occur within seven days of a vaccination request. For more information, please visit this page: <https://www.mass.gov/info-details/in-home-vaccination-program-covid-19influenza>

DPH Announces 13th Human Case of WNV and Lowered Risk of EEE

DPH [announced](#) the 13th human case of West Nile Virus (WNV) in the state this year. The individual is a man in his 40s with exposure in southern Essex County. As a result, WNV risk levels are being raised to moderate in Middleton and North Reading in Middlesex County.

DPH [announced](#) the risk from Eastern equine encephalitis (EEE) is no longer considered high or critical anywhere in the state. Communities previously at high or critical risk are now at moderate risk.

More information, including all WNV and EEE positive results, can be found on the Arbovirus Surveillance Information web page at [Mosquito-borne Diseases | Mass.gov](#), which is updated daily, or by calling the DPH Division of Epidemiology at (617) 983-6800.

Vector Surveillance and Control at the Local Level: Findings from the 2023 National Vector Assessment

A [new report](#) published by NACCHO, with support from CDC, finds that local vector control programs that responded to a 2023 national survey routinely conduct mosquito surveillance and control but continue to face barriers with pesticide resistance testing. The findings emphasize the need to provide more funding and technical assistance to local vector control programs, and validate several of the goals outlined in CDC's [National Public Health Strategy to Prevent and Control Vector-Borne Diseases in People](#).

NACCHO: New Communications Planning Guide

A new [Communications Planning Guide for Local Health Departments](#) has been designed for local health department staff who are tasked with communicating specific messages to the public. The guide provides a basic framework to use, including questions to consider when developing communications and evaluation strategies. It also includes considerations for how local health department professionals can incorporate health equity, social justice, and accessibility considerations, including health literacy, into their work.

[Back to top](#)

October Webinar

Each month, the Office of Local and Regional Health provides webinars on various topics relevant to local public health. This month's topics included an update on the Local Public Health Data Solution, food allergen awareness training, and the Municipal Public Health Services Master Service Agreement. [View slides](#), [answers to questions](#) asked during the webinar, and [related resources](#).

We Want to Hear From You!

Submit your questions and recommended topics for the next monthly webinar, on Tuesday, Nov. 5 , to us via email to localregionalpublichealth@mass.gov by Wednesday, Oct. 30. We value your input and welcome your suggestions for future webinar topics.

How to Register

- If you have not yet registered for this webinar series, use this link: https://us06web.zoom.us/webinar/register/WN_A8RODgL2QtabJJqdNTpV1g
- Please note this is a recurring event. You only need to register once .
- After registering, you will receive a confirmation email from Zoom with your unique link to attend the webinar and import the events into your calendar ([how-to guide](#)).

Accessibility

We want to ensure that our webinar is accessible to our audience. If you need accommodations, such as American Sign Language (ASL) or Closed Caption, please email us at localregionalpublichealth@mass.gov.

The Yankee Conference on Environmental Health is back for 2024! This year the conference is at the Hilton Mystic Hotel in the seaside town of Mystic, Conn. from Oct. 16 - 18 .

[Find out more and register to attend](#) by Oct. 6 . If you have any questions regarding the conference, please email yankeeconferenceinfo@gmail.com.

Society for Health Communication Webinar: The State of Social Media

 Level-Up Learning Series Webinar

The State of Social Media: Breaking Through in a Modern Social Feed

Wednesday
October 9, 2024
12:30–1:30pm ET

Stacey Bernstein
CEO
M Booth Health

Anisha Patel
Senior Vice President
Public Affairs
M Booth Health

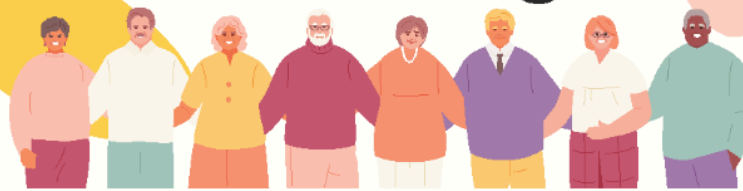

MBOOTH:HEALTH

Social media is undoubtedly an essential tool for any healthcare communicator in today's world, but staying relevant and finding success in an increasingly crowded feed is no easy feat. So how do we break through? By deeply understanding platform trends, behavior shifts and the key places and spaces where health intersects with the online conversation. Get a deep dive into the state of play across social media and how healthcare communicators can find success in a modern social feed.

Wednesday, Oct. 9
12:30 p.m. on Zoom
[Register to attend](#) by Oct. 7

Policy, Systems, and Environment (PSE) Change Training

This training will give participants an understanding of how social and historical factors impact health and how systems and structures maintain health disparities. It will introduce participants to the Policy, Systems, and Environment (PSE) Change framework and how to use it to address underlying causes of health inequities in their communities. Examples using this strategy from Franklin County include the Senior Tax Workoff and ADA Self-Evaluation and Transition Plan.

Monday, Oct. 7
12 - 2 p.m. on Zoom

Career Opportunities

CMRPC Training Hub is Hiring!

The Central Massachusetts Regional Planning Commission (CMRPC), serving 40 communities in southern Worcester County, seeks a Public Health Regional Trainer within the agency's Regional Collaboration and Community Planning Department. This position will support CMRPC's [Public Health Training Hub](#) to conduct applied training in Food Safety, Housing, Septic Systems & Title 5, and other public health inspections to local and regional public health staff. [Learn more about this position](#) and [apply here](#).

NBCPHA is Hiring!

The Northern Bristol County Public Health Alliance (NBCPHA), based out of Berkley, covering the towns of Attleboro, Berkley, Dighton, North Attleboro, Rehoboth, and Taunton, is seeking candidates for the following positions:

- Regional Social Worker - This position supports NBCPHA to identify and implement best practices for public health service delivery, and to increase the Alliance's awareness of and improve regional response to health risk behaviors. Provide case management assistance and referrals for community residents, as needed. [Learn more and apply here](#).
 - Regional Public Health Nurse - This position is responsible for administering and implementing NBCPHA's public health nursing functions including planning and implementing interventions, facilitating collaboration across the municipalities, conducting clinics, programs, communicable disease investigations, and administering immunizations. [Learn more and apply here](#).
 - Regional Inspector - This role will provide environmental health services to citizens and protects the health and safety of the public from adverse environmental determinants. Conducts environmental health inspections and evaluations. [Learn more and apply here](#).
-

Newton is Hiring!

The City of Newton is seeking candidates for a Public Health Nurse Educator. This position is responsible for carrying out public health nursing functions as part of a comprehensive public health program. This includes health needs assessment; communicable disease surveillance, prevention, and control; immunizations; and health education and promotion. [Learn more and apply here](#).

Southborough is Hiring!

The Towns of Southborough and Northborough, through the Town of Southborough, are seeking candidates for a full-time [Health Agent](#). This position will perform a wide range of inspection and enforcement duties related to public health, sanitation, and environmental laws and regulations. Preference will be given to candidate that has a RS /REHS certification. First preference will be given to those applicants who apply by Oct. 15. [Learn more](#) and [apply here](#).

Greater Boroughs Partnership for Health is Hiring!

The Greater Boroughs Partnership for Health, serving the towns of Northborough, Southborough, Westborough, and Boylston, is seeking candidates for the following positions:

- Regional Public Health Nurse (FT) This role will implement and coordinate public health nursing services across the region, including disease surveillance, health education, and wellness programming. [Learn more about this position](#).
 - Regional Epidemiologist (PT) This role will assist the HHS Department in research and development, implementation, and communication of epidemiological aspects of traditional public health efforts. [Learn more about this position](#).
 - Shared Services Coordinator (PT) This role will support the coordination, implementation, and management of shared public health services across the region, including facilitating the delivery of nursing, inspectional, and epidemiological resources and leading efforts to secure and manage resources for the ongoing work of the initiative. [Learn more about this position](#).
-

Dighton is Hiring!

The Town of Dighton is seeking candidates for the following positions:

- Health Agent - This role will assist with inspection and plan reviews for compliance with state codes. They will support and assist BOH staff and participate in meetings as needed. [Learn more about this position](#) and [apply here](#).
 - Town Nurse - The role is responsible for delivering public health nursing services, promoting community health, and ensuring compliance with health regulations within the Town of Dighton. [Learn more about this position](#) and [apply here](#).
-

Hamilton is Hiring!

The Town of Hamilton is seeking a Regional Public Health Nurse to serve the towns of Hamilton, Wenham, Rockport, and Essex. They are seeking a dedicated individual who brings enthusiasm and a passion for public health and community wellness. While experience is not a requirement, previous exposure to public health, or other types of nursing is an asset. The position coordinates and leads a Regional Public Health Nurse Program in close cooperation with local and health officials. [Learn more about the position](#) and [apply here](#).

Foothills Health District is Hiring!

The Foothills Health District, covering the towns of Goshen, Westhampton, Williamsburg, and Whatley, is seeking a Health Inspector. The position offers an option of a four-day work week and is fully benefitted with paid training. Compensation commensurate with experience and education. [Learn more about the position](#).

Find Your Future with the Commonwealth

[Find job opportunities](#) across industries including health and human services, transportation, IT, finance, housing and economic development, energy and environmental, public safety and security, and education. First consideration is given to those who apply within the first 14 days.

Funding Opportunities

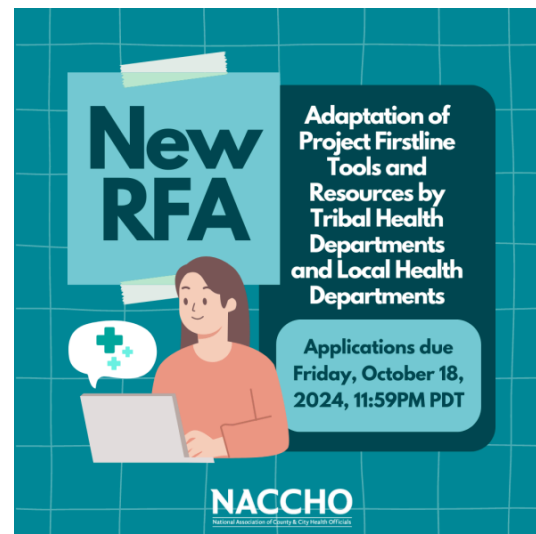

Apply for the Municipal Master Services Agreement (MSA) RFR

The purpose of this [Request for Responses \(RFR\)](#) is to establish a pre-qualified list of approved vendors, namely local and regional public health entities, to be eligible for potential to receive future funding from the Department of Public Health (DPH).

All municipalities and/or regional health districts are strongly encouraged to apply as many future DPH grants will be distributed through this municipal master services agreement (MSA). **NOTE:** PHE lead grantees are already in the MSA and do not need to apply.

[Visit the RFR posting](#) for the application and Confidentiality Agreement (can be found in the REQ zip file on COMMBUYS). Please return the completed forms to Brian.W.Sheehan@mass.gov along with any other questions.

NACCHO Funding Opportunity: RFA Adaptation of Project Firstline Tools and Resources

Through this Request for Applications (RFA), NACCHO is pleased to offer a technical assistance and funding opportunity to implement and adapt CDC's [Project Firstline](#) tools and resources to support infection prevention and control (IPC) work aimed at strengthening IPC capacity in healthcare facilities within their jurisdictions. The deadline for applications is Friday, Oct. 18 . [Learn more and apply.](#)

NACCHO Funding Opportunity

Is Your Health Department PPHR Ready? Applications are open through Thursday, Oct. 31 for the 2025 cycle of Project Public Health Ready (PPHR). This criteria-based training and recognition program helps LHDs develop core public health and emergency preparedness competencies. The program offers LHDs an opportunity to build partnerships with local, state, and federal leaders, community response partners and other stakeholders

as well as facilitate collaboration and team building across their entire health department. [Click here to learn more.](#)

EPA Funding Opportunities

- Recreation Economy for Rural Communities Identify strategies to grow outdoor recreation economy and revitalize main streets in rural regions. Open to local governments, among others. Apply by Wednesday, Oct.16 . [Learn more here.](#)
 - Develop and Demonstrate Nanosensor Technology to Detect, Monitor, and Degrade Pollutants is open to state and local governments. Apply by Wednesday, Nov. 13 , and [learn more here.](#)
-

CDC Funding Opportunity: Environmental Health Specialists Network (EHS-Net) Practice-based Research to Improve Food Safety

Environmental health programs are typically responsible for retail food safety in their jurisdictions; and foodborne outbreaks commonly occur in retail food establishments such as restaurants, delis, and caterers. Thus, the focus of these research and investigation efforts is retail food safety. You must be able to collaborate with epidemiology and laboratory staff in your health departments or in other agencies that conduct foodborne outbreak investigations. Application deadline: Monday, Dec. 2, 2024. [Learn more.](#)
