Hello Kasia,

Could you read through these regs to see if I missed anything? I included the definition of oral nicotine pouches but I didn't put anything in the draft regulating their sales.

This is just changing the fining structure. I figure if the Board decides to add anything around nicotine pouches or nicotine free generation, that can be done in a future version. It will probably take several months at best.

Let me know if anything needs to be changed before sending it out to the Board and to the retailers.

Thanks,

Amy
