

Hi all,

In case you haven't heard, several Public Health related bills - - including NFG, ban on internet sales, and others - - in committee and scheduled for a hearing next Monday. Very short notice.

If anyone is interested in testifying either in person, virtually, or in writing, the instructions are in the email below. I also have a good email from Cheryl Sbarra reminding us of the rules of engagement ("educating" our legislators versus "lobbying"). Let me know if you would like her email.

Thanks and stay cool,
Maureen
