FY25 NARRATIVE
The Stoneham Health Department has expanded its services and offerings during FY25, effective January 1, 2025, to a new Human Services model.
FY25 Significant Changes
We have a new member of the department, Heidi Gerostergios, who joined us in January 2025 as a Nurse. She has built strong relationships in the community and helped expand our camp and communication capacity.
We have added a new full-time Social Services Coordinator position (Tracy Rizzo) as of November 2024, a hybrid position, shared with the Stoneham Police Department, with the goal of providing a support and coach for the community to connect with existing resources.
John Scullin, Chair of Board of Health and member of 23 years, retired on March 26, 2024. Valued his service to the Town of Stoneham. Frank Gould stepped up to the open position on the Board of Health to working with him moving forward.
FY25 ACCOMPLISHMENTS
With the addition of full-time Health Inspector Thomas Bilbilian in FY24, we have been able to increase capacity for food and housing. We were able to meet the FDA risk-based food inspection schedule.
The Stoneham Board of Health became the first Board in the world to pass Nicotine Free Generation policy that aims to phase out tobacco products over time. The birthdate restriction of January 1, 2025, for a generation of people that will not know tobacco as a norm, while also not adversely affecting current tobacco purchase tobacco by the effective date of January 1, 2025.
We have continued to successfully provide flu vaccine to the community through a variety of locations, including the Council on Aging, and Town-wide events.
FY26 DEPARTMENT GOALS
We will look to expand our substance use prevention and mental health education footprint through the Nicotine Free Communities (DFC) grant, now in its eighth fiscal year. We will be focusing on both children and adults.
We will be building out the responsibilities and scope of the new Social Services Coordinator position for the benefit of the residents. We will be collecting data to better understand where the gaps are in Stoneham.
We will be reviewing our current Board of Health regulations to ensure that they are updated to reflect the current situation.
