

You're an ADULT, and it's YOUR CHOICE!

The "Nicotine Free Generation" concept is the next step in an authoritarian movement that seeks to dictate the life choices of adults 21+. This attempt to regulate morality is designed to prevent adults of all ages from buying and using these adult products.

That's what Article 19 is all about, and why voters are rejecting it.

VOTE NO ON ARTICLE 19

Bellingham Town Meeting
Wednesday, May 28, 2025

Article 19 Takes Away Adult Rights. Adults 21+ have the right to make personal decisions about their use of adult age-restricted products. Under Article 19, they will lose that right.

Article 19 FAILS to Address Underage Nicotine Use.

NFG policies do nothing to stop underage nicotine use because it applies ONLY to adults.

Article 19 Creates Real Harm by driving nicotine sales across state lines and to the unregulated underground market where no ID is required, and kids can get easy access from bad actors selling contaminated goods.

Bellingham: Say NO to NFG.
