Thank you! I may bring a sample as well, flavored e-liquid I ordered online to prove that this loophole can be accessed. Is there a procedure for bringing anything in or can we just do it?

Individually. You have to register to get a chance to testify. If they have time they will allow same day testimony but best to register in advance.

Even virtual folks have to register.

I will speak to your bill as well. Any of these bills that reduce youth access, youth use, youth addiction (or even adult addiction) are important.

I'll be thinking about what i want to say but I am sure I will bring sample products.

I look forward to seeing you there. Hearings are interesting. Expect lots of retailers. The trade associations will get them to come in to testify. They have shown up in large numbers for previous bills. So we have to make sure we get advocates to turn out. Especially youth!!!

I will be going in-person to support both NFG and also H.2482(An Act to Ban Internet Tobacco Sales), if you all are willing to also express your support for my bill, it would be greatly appreciated!

I will prepare my speech for NFG on the impact of tobacco addiction on youth and the necessity of taking steps to prevent it.

Can't wait!

I'll focus on the endless array of new, appealing high nicotine products. Especially those that are designed to appeal to teens, pre-teens, maybe even younger and are not the harm reduction product the industry touts.

I'd propose a central document that has a summary of each person's talking points

so we don't repeat and to make use of the 3 minutes.

I'll work on my speech this week, but will center around the impact on college test scores, fire/police and military training. I'll be going in-person and might also speak against the menthol repeal proposal while enjoying state-funded AC.
