In regards to the new nicotine law that you want to implement. I can sugarcoat it and be sweet or I can just say it like it is because it's not going to matter you board members will decide, and have already decided you're just going through the motions.

How you can make decisions for thousands and thousands of people in Yarmouth and be God is beyond me. You are dealing with people's businesses employees and their families stressing them out for the holidays and all you care about is your mission to eliminate vaping have you ever thought about the millions and millions of people who have died from alcohol abuse. Driving, drunk and killing innocent people and ruining their families no, you're mission is eliminate vaping.

The bigger issue is alcoholism, but you're all hypocrites and you all drink so we won't touch that 21 stores for alcohol is fine. You are spewing fault information at your board meetings, showing pictures that are batteries saying that they are vaping products?

It's unfortunate how a few people can decide the future of others when the law is 21 how you all sleep at night is beyond me.

Thank you
Valery
